

Redefining Payroll

ProData powered by Cloud is changing the way businesses process payroll. ProData powered by Cloud understands that your time is important. We developed an easy to use and easy to access payroll system that puts you in control. Quickly process payroll, add information and modify configuration as your business grows.

Key Features

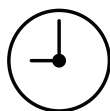

Customized Set Up

Payroll done your way for your ease of use. Enter and maintain your organizational, employee, and payroll set-up.

Payroll Processing

Intuitive processing flow allows payroll to be completed in minutes. The system supports multiple pay period processing at the same time. Run reports, revise and recalculate payroll any number of times before finalizing.

Time Sheet Entry

Access the Time Sheet Grid Entry to quickly edit and approve employee's time or use the one-click process to accept standard pay for employees. Choice of your favorite time keeping systems or our integrated vendors.

Employee Self-Service

Employees can access their own online portal to look up and print pay stub information, year-to-date pay information, and paid time off balance.

Customized Reporting

Access standard and popular prebuilt reports or create your own based on information in the system.

Tax Filing & Reporting

ProData will file all of your local, state, and federal payroll tax withholding deposits for you.

W-2 & New Hire Reporting

ProData handles all of the processing, printing, and mailing of your employee W-2 forms. ProData takes care of new hire reporting with state agencies accurately and on-time.

Deductions, Contributions & Direct Deposit

Set up an unlimited number of employee deductions and company contribution calculations per employee. Flexible scheduling for deduction occurrence, maximums, and calculation methods. Split employee net pay among unlimited number of bank accounts.

General Ledger Tracking

Set up your own chart of accounts, generating balanced payroll journals for each payroll run. Export payroll accounting to popular accounting packages like QuickBooks and Peachtree.

Manage your employees and payroll with one powerful solution.
Meet ProData powered by Cloud.
